

DeliverHealth

eScript One Required InScribe Upgrades Action Notice

Action Required

To ensure security and optimal application functionality, DeliverHealth is requiring users to update to the latest versions of all eScripton One applications, including InScribe. We will discontinue support for outdated versions, which will prevent transcriptionists from logging in. To avoid disruption in service, please ensure all machines have been upgraded to InScribe v7.13.23100 (or higher after additional versions have been released) by **December 31, 2023**. We appreciate your cooperation and support.

Application Download

<https://www.escription-one.com/software/inscribe>

NOTE: For managed systems, an MSI installer can be downloaded from the above website by copying the link for latest version installer, then change the URL to end with “MSI” instead of “exe”.

Minimum Supported Version after December 31, 2023

InScribe v7.13.23100

Minimum InScribe Application Requirements

- Operating system: Windows 10
- RAM: 4 GB or higher
- Processor: 1 GHz or faster (32 or 64-bit Architecture)
- Hard Drive Free Space: 1 GB or higher
- .NET Framework 6 or higher
