

DeliverHealth

eScript One Mobile for iOS v3.3 Release Notes

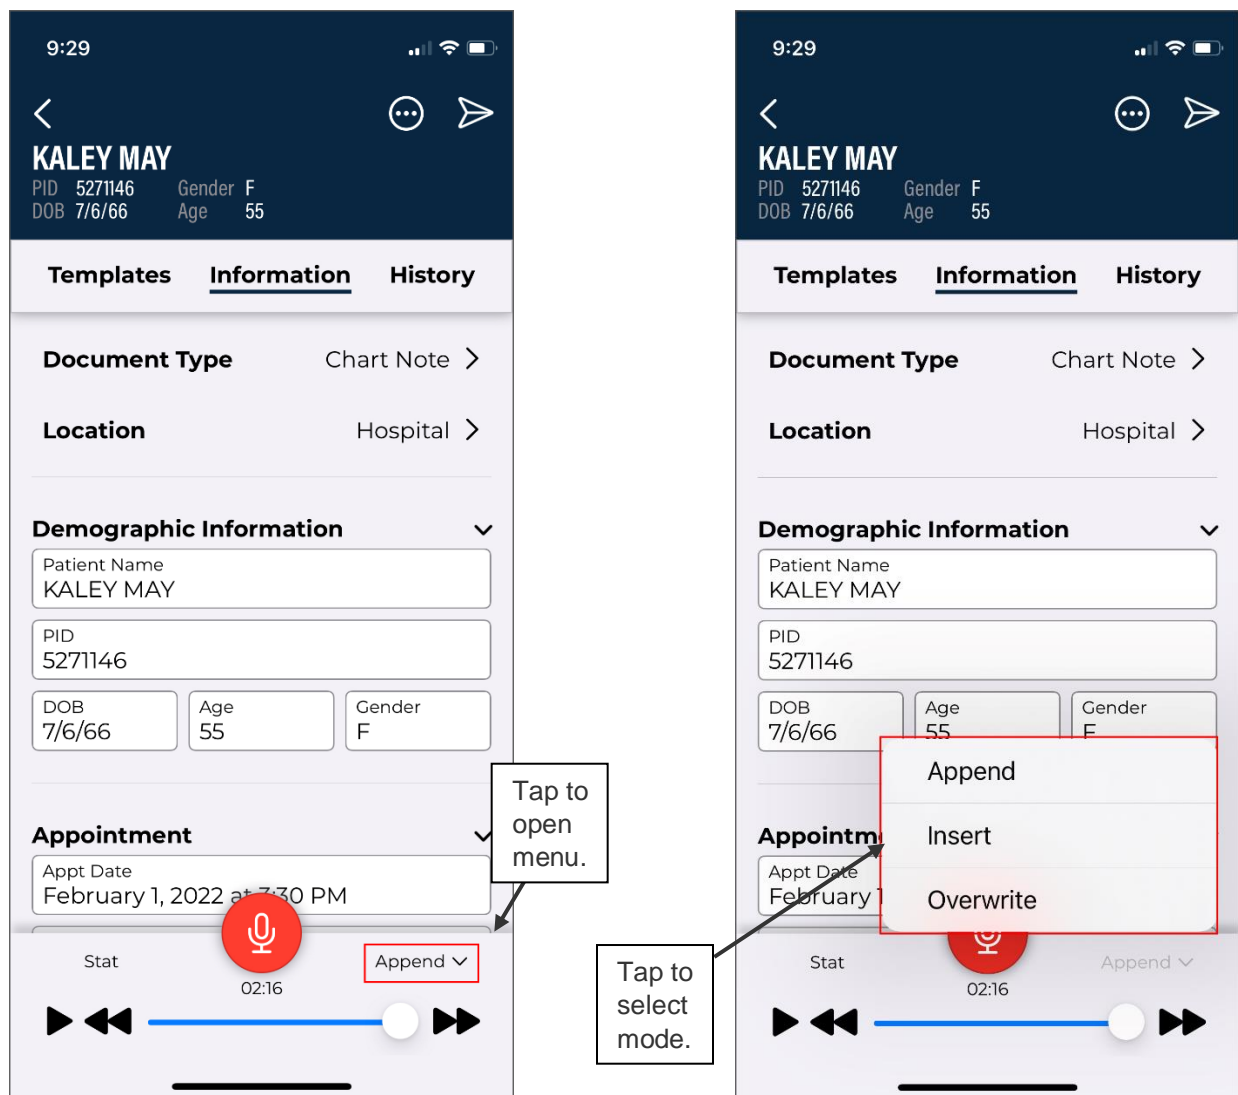

What's new?

DeliverHealth is pleased to announce the release of eScripton One Mobile for iOS v3.3. In this version, a new menu has been added for selecting the record mode.

Record Mode Menu

To open the new menu, tap the current record mode (to the right of the record button). Tap one of the three modes: Append, Overwrite, or Insert.

After selecting a mode, the menu will automatically close, and the new mode will be displayed on the screen.

Solved Issues

- Fixed a minor issue with patient age calculation.
- Other minor bug fixes.

Application Requirements

- Any iOS device with iOS 15.2 or greater. Open 'Settings' and tap 'About' then 'Software Version' to confirm that the OS installed is version 15.2+.
- Internet Access through a wireless Local Area Network (LAN) connection or through a phone service provider. It is strongly recommended to use a Wi-Fi LAN connection when uploading dictations. Minimum bandwidth: LTE/4G data connection; recommended is stable Wi-Fi.
- Communicates over port 443 to <https://mobile.escription-one.com> using TLS 1.2.
