

DeliverHealth

eScripture One InScribe v7.11 Release Notes

What's New?

DeliverHealth is pleased to announce the release of InScribe v7.11. This release includes an increase to the dictation playback volume and updates to the user and application dictionaries.

Increased Volume in Advanced Audio Player

The playback volume in the InScribe Advanced Audio Player has increased to accommodate scribed dictations that are not recorded close to the microphone.

Solved Issues

- Fixed an issue with words in the user's custom dictionary files being flagged as misspelled.
- Updated the InScribe dictionary:
 - Corrected the spelling of the words 'nitro-patch', 'cannula', 'weight-bear'.
 - Removed words from the dictionary so they will be flagged as misspelled: 'circ', 'fluorescin', 'Hagar', 'Hager', 'lefthand', 'moreso', 'nitropatch', 'righthand', 'righthanded', 'shortlived', 'weightbear', 'hyperhydrosis'.

Application Requirements

- Operating system: Windows 10
- RAM: 4 GB or higher
- Processor: 1 GHz or faster (32 or 64-bit Architecture)
- Hard Drive Free Space: 1 GB or higher
- .NET Framework 6 or higher

Note: A web browser is not required for InScribe 7.
